

Alta Rochelle

Client Objective

NTI proudly designed the comprehensive low-voltage systems for this project. Our scope extended from the core utility spaces to the specialized technology driving high-traffic amenities, delivering high-performance connectivity and a seamless user experience property-wide.

From initial planning to physical rollout, we engineered this environment for peak performance and safety. We deployed a scalable structured cabling system to ensure flawless voice, data, and Wi-Fi coverage across all private units and social hubs. This system integrates a complete security suite featuring strategic CCTV coverage and smart access control.

Alta Rochelle stands in the heart of Nashville, placing residents within walking distance of the city's premier music and dining venues. This premium residential development features 355 units and 7,600 sf of amenity space. On-site lifestyle spaces include a clubroom, co-working hub, pool deck, courtyard, dog spa, and beer garden.

Location	Nashville, TN
Size	544,425 SF

Client	Dynamik Design

NTI Solutions in this Project

Structured Cabling

Standards-compliant copper and fiber optic pathways, equipment rooms, and backbone infrastructure engineering.

IT

High-capacity network infrastructure supporting POS, PMS terminals, and continuous building-wide Wi-Fi access.

Security

Multi-layered CCTV cameras, card access, duress alarms, and strategic video monitoring setups.

AV

Architectural plans and infrastructure design to reliably support property-wide television and media.
