

# Bowie House Resort Hotel

## Client Objective

NTI was selected for the technology consultation, including design services, as well as providing construction administration services to confirm the design intent. This distinguished hotel and its amenity spaces encompass approximately 128,000 GSF.

Our scope for the Bowie House included the 106 guestrooms and 10,000 sf of meeting and event space. The amenities in scope were the library, the spa and fitness center, a covered patio, and an amenity deck on level two. Additionally, our design addressed the impressive dining options – Bricks and Horses, The Bar at Bowie House, and The Yard, which offers an outdoor communal space. NTI also completed a low-voltage consultation for the 74,000 sf below-grade parking areas.

Auberge Resorts Collection has 30-plus hotels across the US, Mexico, the Caribbean, Central America, and Europe. Their accolades include nine number-one rankings at their destinations.

NTI was proud to assist in the achievement of their goals, accomplished via the design of this prestigious hotel.

This new 5-Star luxury hotel is located in the Cultural District of Fort Worth, Texas. According to the Michelin Guide website, "it just might be the most stylish building in Fort Worth, Texas; it's surely the city's most extraordinary luxury hotel." It is near multiple well-known museums and is replete with art of equestrian and western themes.
