Client	Jamestown Headquarters

Jamestown Headquarters

Client Objective

Headquartered in Atlanta and Cologne, real estate firm Jamestown employs over 400 people globally across offices in cities like New York, London, and San Francisco. Its iconic portfolio includes Chelsea Market, Industry City, and Ghirardelli Square.

When Jamestown developed Ponce City Market—a 2.1-million-square-foot mixed-use complex in Atlanta—they brought on NTI as the technology consultant. NTI designed the cabling infrastructure, AV systems, access control, and CCTV for the entire property, as well as Jamestown's new 75,000-square-foot corporate headquarters on the 7th floor.

NTI Solutions in this Project

Structured Cabling

Physical infrastructure detailing cable, patch panels, racks, cable management, terminations, and construction administration oversight.

Security

CCTV cameras, door contacts, alarm systems, monitors, DVR units, system testing, and training.

AV

Displays, projectors, speakers, control panels, input plates, lighting coordination, and TV distribution systems.
