Westin Grand Cayman Beach Resort and Spa

Client Objective

NTI was entrusted with the technology consultation, design, and construction administration for the renovation and expansion of this opulent hotel and its amenity spaces, encompassing approximately 311,109 GSF.

The areas in our scope for the Westin Grand Cayman Seven Mile Beach Resort and Spa included renovating selected areas and the design for new guestrooms and conference space. The 14,928 sf of renovated area comprised the pool, pool terrace, the sky pool and terrace, as well as balcony terrace spaces.

The renovation encompassed 14,928 square feet, including the pool, pool terrace, sky pool and terrace, and balcony terrace areas. Newly designed areas included a 194,028 sf guestroom tower with 200 keys and 20,245 sf of new conference room space, plus 13,862 sf of new off-site administrative and laundry spaces.

Westin Hotels & Resorts has a global presence with a 68-year history. As one of the oldest management companies in North America, it offers luxury signature amenities with a focus on wellness.

NTI Solutions in this Project

Structured Cabling

Standards-based copper, fiber, and coaxial distribution pathways for voice, data, and television infrastructure.

IT

High-performance network supporting voice systems, POS, PMS, administrative LAN, timeclocks, and wireless access.

Security

Video surveillance cameras, DVRs, VMS software, door contacts, motion detectors, keypads, and duress alarms.

AV

Ballroom, meeting room, and background music systems, including speakers, amplifiers, wall plates, and displays.
